About me,

Full stack Python developer with a passion for building high-quality web applications. Strong expertise in Python, Django, React, and JavaScript. Familiar with Agile development methodologies and collaborative work environments. Eager to contribute to a dynamic team and drive innovation.

Project

Laundry Management system

With the help of Html, css, JavaScript as front end and Php, MySQL as a back end language were used to create the project. The goal was to automate the management of the laundry firm making it more efficient and error free
